

## **Women Leaders Coming Together on Prince Edward Island**

### **For Immediate Release**

**Charlottetown PE** – In just over two weeks, Prince Edward Island will play host to women leaders from across Canada as they attend the A Bold Vision, Women's Leadership conference from September 24<sup>th</sup> to 26<sup>th</sup> at the Rodd Brudenell River Resort.

The conference agenda will feature some of Canada's most influential and inspiring women leaders including the Right Honourable Kim Campbell, Canada's first and only female Prime Minister. The conference includes sessions on a variety of leadership topics including mentorship, leadership communication, board participation and achieving your goals.

Conference presenters include all 23 of the women selected by A Bold Vision through their national search. This prestigious group has seven recipients of the Order of Canada, four recipients of the Queen Elizabeth II Diamond Jubilee Medal, four PhDs, twelve authors, a spoken word artist, a business pioneer and a rocket scientist.

"The Women's Leadership Conference is one of the most exciting parts of the A Bold Vision project," commented Sara Roach-Lewis, A Bold Vision chair. "At this conference we will bring together over 150 women and have the opportunity to learn from our inspiring visionaries and each other."

To conclude the conference the 23 women visionaries will treat delegates to a forum where they will present their collective vision for Canada. This session, which is public ticketed event, will take place from at 1:30 pm on September 26 at the Confederation Centre of the Arts.

"Delegates are coming from across Canada but we're just as excited about all the Island women leaders that will be attending," shared Roach-Lewis. "Not very often does a conference of this size and scope happen on Prince Edward Island, we hope many Island women will take advantage of this unique opportunity."

A Bold Vision project was brought together by a coalition of women's organizations and with support from PEI 2014 Inc.

For more information about the conference, the project and to register people can visit [www.ABoldVision.ca](http://www.ABoldVision.ca). Registration is still open, but space is limited.
